

# COMPANY CASE STUDY

Providing Sustainable Compliance Services and Solutions

[www.ingenicotech.co.in](http://www.ingenicotech.co.in)

## BACKGROUND

A Germany-based Global consulting and planning company with a focus on the GxP-regulated environment worldwide.

The company has been working with USA based pharma company for overall GxP compliance including assessment and remediation towards IT infrastructure qualification. The company outsourced the said activity to us to supplement their heavily engaged workforce.

## SOLUTION

The core team was established to govern the assignment under the supervision of a German Principal consultant. The scope covered complete Data Centre qualification including Servers, network, infrastructure components, client stations. The assessment covered a review of the following:

- Validation / Qualification Plan, Risk Assessment Plan
- Infrastructure Design Specification
- Standard Operating Procedures of Data Center, Infrastructure, and Workstations
- Network Diagrams and Inventory List for Network Components
- Actual Project Documents

Providing gap assessment and adding missing risk assessment.

## BENEFITS

### 1. Resource Optimization

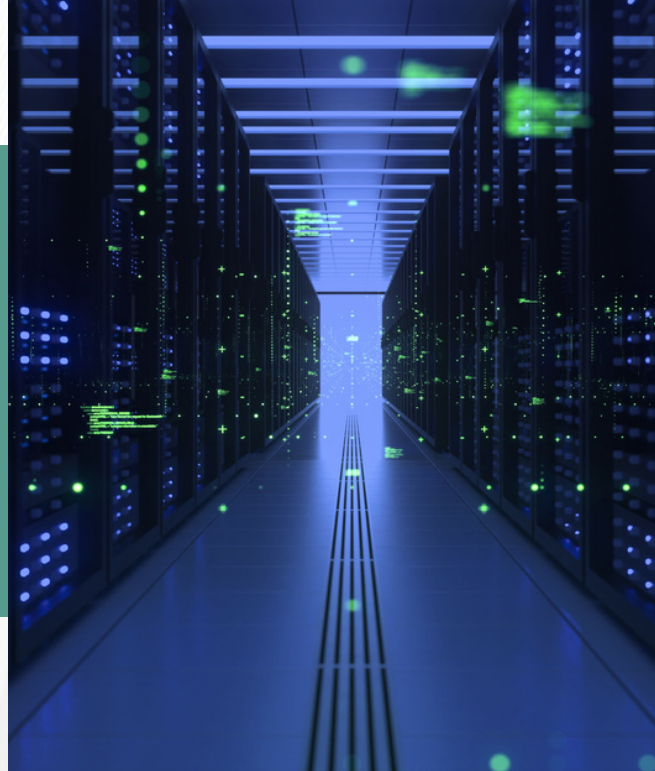

Due to time difference efficient use of project resources and time.

### 2. Consistent Quality

Trained resources maintained consistent quality output as governed under client procedures.

### 3. Economical Solution

Structured distribution of work to German governance and the Indian workforce ensured a more economical solution.

## AT A GLANCE

### CHALLENGES

- Project Time Management
- Qualified Resources
- Quality Output
