

COMPANY CASE STUDY

Providing Sustainable Compliance Services and Solutions

www.ingenicotech.co.in

BACKGROUND

A leading India-based Pharmaceutical Company catering to its clients across the globe manufacturing and exporting of Active Pharmaceutical Ingredients. The company has invested hugely in modernizing their lab which include worldclass automated equipment and softwares.

All operations were handled through electronic or computerized systems and appeared fully electronic. However, in practice applications are implemented standalone with no interface except paper and manual data input.

SOLUTION

We carried-out complete process mapping was performed which covered process from sample receipt to analysis result. Entire operations were converted to integrated electronic records deploying and integrating following solutions.

We integrated existing DMS, QMS, and LMS software for a seamless workflow. Also, provided eLogbooks and Spreadsheet Management software for making it paperless.

BENEFITS

1. Resource Optimization

From 30 to 40% of man hours' time is estimated be saved for each process

2. Efficient Record Management

Electronic data can be shared more easily and quickly, allowing decisions to be made faster than on paper

3. Regulatory Benefits

Reduction of failures during the execution of the processes, such as manual transcriptions, Improved data quality, Automating regulatory compliance

AT A GLANCE

CHALLENGES

- Manual entry errors
- Additional Manpower to manage software
- Return On Investment
